ISCCM News Headlines

Pune Critcare 2012 ready for the big show

5 days > 20 Workshops > 100 presentations
>100 faculty> 3000 participants

No Spot registrations

HouseFull history made -

Appeal Please update your Email ID and Register your mobile phone no with ISCCM

Dear members

This is to bring to your kind notice that ISCCM elections will be held online only. It is, therefore, imperative that ISCCM office has email ids and mobile phone no of all its members for making 100% effective communication. Therefore, you are requested to please update your email ids and mobile numbers in the records of ISCCM as early as possible, before 30th June 2012. Please visit our website www.isccm.org for more information. All branches have special duty to do. Please facilitate this important task of collecting email ids and mobile numbers of all its members.

Dr. Narendra Rungta

February 17th, 2012
1st Convocation Ceremony of The Indian College of Critical Care Medicine
Venue: Grand Ballroom (HALL A), Marriott Hotel & Convention Centre
Time: 6:15 pm Onwards

February 17th, 2012
Past Presidential Oration
Topic: “Is Critical Care Medicine Good Work in India Today?”
- Dr. Ram Rajagopal
Venue: Grand Ballroom (HALL A), Marriott Hotel & Convention Centre
Time: 6:15 pm Onwards

February 18th, 2012
ISCCM Oration – Topic: Comprehending & Battling ICU superbugs
- Dr. Camila Rodrigues
Venue: Grand Ballroom (HALL A+B+C), Marriott Hotel & Convention Centre
Time: 10:05 to 10:45 am

February 18th, 2012
AGM
Venue: Grand Ballroom (HALL A), Marriott Hotel & Convention Centre
Time: 6:15 pm Onwards

February 18th, 2012
IDCCM Exam
Venue: YASHADA Campus
Baler Road, Pune - 411 007.
Time: 2:00 pm to 5:00 pm
Buses will be provided from Marriott Hotel 1:30 pm to go to Yashada Campus and a drop back to Marriott after the exams.

February 18th, 2012
BANQUET
Venue: Emicure Lawns, Hinjewadi, Pune
Time: 7:30 pm Onwards

February 18th, 2012

**Day 1 Parallel Sessions**

**Hall A**
- **2.00 pm - 3.30 pm**
  - Infection
  - Panel: Methicillin Resistant Staphylococcus Aureus in India
    - Moderator: Sudhir Todi
    - Panelists:
      - Pavan Arora
      - S.K. Narang
      - Kanti Garg
    - Chairperson: S. K. Garg
  - Countering threat of invasive candidiasis in ICU
  - W. Paal: 3.00 pm - 3.30 pm
  - Newer drugs for gram positive infections
  - R. Singh: 3.30 pm - 3.45 pm
  - Q & A: 3.45 pm - 4.00 pm

**Hall B**
- **2.00 pm - 3.30 pm**
  - Cardiac Intensive Care
    - Chairpersons
      - P.K. Garg
      - Arvind Varma
      - P.K. Joshi
  - RV function and critical illness
  - Andrei Hilton: 2.00 pm - 2.40 pm
  - LV assist devices in acute heart failure
  - Vivek Hara: 2.40 pm - 3.00 pm
  - Levosimendan in heart failure
  - P. Chinnakali: 3.00 pm - 3.20 pm
  - Thrombolytic Therapy in Acute Coronary Syndrome: Current status
  - Anil Chadha: 3.20 pm - 3.40 pm
  - Q & A: 3.40 pm - 4.00 pm
  - COFFEE BREAK

**Hall C**
- **2.00 pm - 3.30 pm**
  - Neurocritical Care
    - Chairpersons
      - S.S. Iyer
      - N. Chopra
    - Intracerebral Hemorrhage: Should we reduce blood pressure?
      - R. Narayana: 2.00 pm - 2.40 pm
    - Controversies in the treatment of Status Epilepticus
      - J. Murthy: 2.40 pm - 3.00 pm
    - Noseal meningioma
      - S. Bhargava: 3.00 pm - 3.20 pm
    - Subarachnoid Hemorrhage: Triple H therapy and beyond
      - R. Narayana: 3.20 pm - 3.40 pm
    - Q & A: 3.40 pm - 4.00 pm
    - COFFEE BREAK

**Hall D**
- **2.00 pm - 3.30 pm**
  - Ventilator Associated Pneumonia
    - Chairpersons
      - Dhuvin Chaudhry
      - R. Pandya
      - E. Subrahmanian: 2.00 pm - 2.30 pm
    - Evidence-based prevention of Ventilator Associated Pneumonia
      - K. Balasubramanian: 2.30 pm - 2.40 pm
    - Difficulties in diagnosing Ventilator Associated Pneumonia
      - S. Saravanan: 2.50 pm - 3.00 pm
    - Neutrophil to Anti-neutrophil Antibody for Ventilator Associated Pneumonia
      - S. Roop: 3.00 pm - 3.10 pm
    - COFFEE BREAK

**Hall E**
- **2.00 pm - 3.30 pm**
  - Expert's Viewpoint
    - Chairpersons
      - Prakash Bhattacharya
      - Manish Parakh
    - Class-based approach to shock
      - S. Narayanan: 2.50 pm - 3.10 pm
    - Functional hemodynamic monitoring
      - S. Kulkarni: 3.10 pm - 3.30 pm
    - COFFEE BREAK

**Hall F**
- **2.00 pm - 3.30 pm**
  - Pediatric Session
    - Chairpersons
      - A. Pandita
      - J. Dikshik
    - Welcome: S. Bashir: 2.00 pm - 2.10 pm
    - Acute Liver Failure
      - S. S. Bhargava: 2.10 pm - 2.30 pm
    - Status Epilepticus established vs New Anti-Epileptic Drugs
      - S. K. Narang: 2.30 pm - 2.40 pm
    - Brain and Osmotic Environment
      - A. Varadarajan: 2.40 pm - 2.50 pm
    - Which fluids in PICU?
      - P. A. Mehta: 2.50 pm - 3.00 pm
    - Q & A: 3.00 pm - 3.10 pm
    - COFFEE BREAK
**Friday, 17th February 2012**

### SCIENTIFIC PROGRAMME DAY-1

#### HALL A

- **4.00pm - 5.30pm**
  - **Hemodynamics**
  - **Chairpersons**:
    - Yatin Mehta / T Suhasini
    -5.00pm - 5.30pm
    - Closed loop
    - Hemodynamic Management
    - Aarti Verma

- **5.00pm - 5.20pm**
  - **Is there any role for Dopamine in 2012?**
  - Vijaya Patil

- **5.20pm - 5.30 pm**
  - **Q & A**

#### HALL B

- **4.00pm - 5.30pm**
  - **Respiratory**
  - **Chairpersons**:
    - G C Khairani / Arvind Bhome
    - 4.00pm - 4.20pm
    - Management of Massive Pulmonary Embolism - Nearer Treatment Strategies
    - Rajesh Chawla

- **4.20pm - 4.40pm**
  - **Aerosol delivery systems in Mechanical Ventilation Recent Advances**
  - Rajesh Pancole

- **4.40pm - 5.00pm**
  - **Limiting Ventilator Induced Lung Injury**
  - Harjeet Durrani

- **5.00pm - 5.20pm**
  - **Community Acquired Pneumonitis - Indian Scenario**
  - Suresh Rameshbabu

- **5.20pm - 5.30 pm**
  - **Q & A**

#### HALL C

- **4.00pm - 5.30pm**
  - **Ethics**
  - **Chairpersons**:
    - N Ramkishnan / Jugesh Sheh
    - 4.00pm - 4.20pm
    - Improving quality of end of life care in an Indian ICU'
    - R K Marri

- **4.20pm - 4.40pm**
  - **Passive Euthanasia - lessons to learn**
  - J V Divatia

- **4.40pm - 5.30pm**
  - **Debate - Industry, Medicine & Conflict of Interest - There is an ethical path**
  - Fahad Kupadda (Pro)
  - Ram Rajagopalan (Cont)

### DAY 1 PARALLEL SESSIONS

#### HALL D

- **4.00pm - 5.30pm**
  - **Renal**
  - **Chairpersons**:
    - F P Wadia / Lata Pillay
    - 4.00pm - 4.20pm
    - Prevention of Acute Kidney Injury in High Risk Patients
    - Patrick Murray

- **4.20pm - 4.40pm**
  - **How to use slow extended dialysis (SLED) in the Indian ICU?**
  - Valentine Lobo

- **4.40pm - 5.00pm**
  - **Non-Dialytic Management of Acute Kidney Injury**
  - Patrick Murray

- **5.00pm - 5.20pm**
  - **Dosing of antibiotics in renal failure**
  - Charles Gomersall

- **5.20pm - 5.30 pm**
  - **Q & A**

#### HALL E

- **4.00pm - 5.30pm**
  - **Expert’s Viewpoint on Ventilation**
  - 20 mins talks

- **Chairpersons**:
  - Manimakal Rao / Sunil Arora

- **4.00pm - 4.20pm**
  - **Neurally Adjusted Ventilatory Assist**
  - Charles Gomersall

- **4.20pm - 4.40pm**
  - **Acute Severe Asthma**
  - Kalyan Kumar Ganta

- **4.40pm - 5.00pm**
  - **Patient Ventilator Dysynchrony**
  - Rahul Pandit

- **5.00pm - 5.20pm**
  - **Imaging Lung contusion in patients with multiple trauma**
  - J J Royby

- **5.20pm - 5.30 pm**
  - **Q & A**

#### HALL F

- **4.00pm - 5.30pm**
  - **Pediatric Session**

- **Chairpersons**:
  - Shehl Morak / Dhrajay Kashkar

- **4.00pm - 4.15pm**
  - **Polytrauma**
  - Dain Dupin Singh

- **4.15pm - 4.30pm**
  - **Pediatric surgeon’s role**
  - Rasheen Patan

- **4.30pm - 4.45pm**
  - **Neurosurgery role**
  - Sachin Shani

- **4.45pm - 5.00pm**
  - **Hospital acquired infections rapid fire case based**
  - Moderator : Suchita Ranjan

- **5.00pm - 5.30pm**
  - **Panellists : Soumo Udani, Ume A, Dinesh Chitrari, Sashi Singh, Vinay Reeti**

- **Chairpersons**:
  - Sagar Lad / Shweta Naik

- **5.30pm - 5.45pm**
  - **Drug for Intubation-Case Based**
  - Anjul Dayal

---

**6.15pm onwards**

- **First Annual Convocation of the Indian College of Critical Care Medicine & Awards**
- **Past President’s Oration - Dr Ram Rajagopalan**
- **Topic:** “Is Critical Care Medicine Good Work in India Today” - Hall A

**8.00 pm onwards**

- **Cultural Program Followed by Dinner - Hall B + C**
### Saturday, 18th February 2012

### DAY 2 PARALLEL SESSIONS

#### HALL A

**Chairpersons**
- J V Divatia
- Sunil Ramasawal

**11.00am - 11.30am**
- Non Invasive Ventilation (NIV) - The future
  - Stefano Nava

**11.30am - 12.00pm**
- Electrical Impedence Tomography: A Novel tool for Respiratory Monitoring
  - Michael Ogihara

**12.00pm - 12.30pm**
- Use of ECMO in refractory hypoxemia
  - Vincent Pellanoglou

**12.30pm - 1.00pm**
- Debate - Should we use Non Invasive Ventilation for hypoxic respiratory failure in ARDS?
  - Stefano Nava (NIV) (PhD)
  - V.S. Mitchell Levy (RPPV) (Cor)

**11.00pm - 12.00pm**
- LUNCH

---

#### HALL B

**Chairperson**
- J D Sunawalla

**11.00am - 11.30am**
- Academy For Infection Management (AIM)
- Case Study Discussion

**11.30am - 11.45am**
- Case 1
  - Vivek Narang
  - Krushna Devar
  - Suvarna Bandopadhyay
  - Jyoti Gokhale

**11.45am - 12.00am**
- Case 2
  - Ominder Singh
  - T D Chugh
  - G P Singh
  - Rajesh Mahajan

**12.00pm - 1.00pm**
- LUNCH

---

#### HALL C

**Chairpersons**
- Pravin Amin
- Vinod Talwar
- Mukund Joshi

**11.00am - 11.30am**
- Glycemic control in ICU - Role of nutrition and specific nutrients
  - Pierre Deschette

**11.30am - 12.00pm**
- Organizing Nutrition support teams for ICUs in Asia
  - Jonathan Aasen

**12.00pm - 12.30pm**
- Optimization of enteral vs parenteral nutrition in ICU
  - Pravin Amin

**12.30pm - 1.15pm**
- New substrates in clinical nutrition
  - Don L. Walsenberg

---

### DAY 2 PARALLEL SESSIONS

#### HALL D

**Chairpersons**
- Prasad Rajhans
- Jayant Shelgaonkar
- Sheila N Myatra

**11.00am - 11.30am**
- Redefining Resuscitation
  - Ken Hillman

**11.30am - 12.00pm**
- Hypovolemic shock in trauma
  - Rahul Pandit

**12.00pm - 12.30pm**
- Therapeutic Hypothermia current recommendations
  - Edgar Jimenez

**12.30pm - 1.15pm**
- Improving outcomes in Cardiopulmonary Resuscitation
  - Ram Rajagopalan

**11.00pm - 12.00pm**
- LUNCH

---

#### HALL E

**Chairpersons**
- Deepak Govil
- Shrikant Ambkar
- Jyoti Shendge

**11.00am - 11.30am**
- Ten things you should know about intra abdominal hypertension
  - Babu Abraham

**11.30am - 12.00pm**
- Management of Variceal Bleeding: An Update
  - Adarsh Choudhary

**12.00pm - 12.30pm**
- Diagnosing mesenteric ischemia in ICU
  - Sanjay Narula

**12.30pm - 1.00pm**
- Hepatic Replacement Therapy
  - Surjit Ray

**11.00pm - 12.00pm**
- LUNCH

---

#### HALL F

**Chairpersons**
- Sanjay Lakwani
- Lall Rawal

**11.00am - 11.25am**
- Cardiogenic Shock
  - Pravin Kinhari

**11.25am - 11.50am**
- Septic Shock
  - Krushna Chugh

**11.50am - 12.15am**
- 5 min Q and A

**12.00pm - 12.15pm**
- Non-invasive monitoring of Cardiac Output
  - Dhiraj Gupta

**12.15pm - 12.30pm**
- Intra- abdominal Hypertension
  - V.S. Prasad

**12.30pm - 1.00pm**
- Optimising Cardiac Output pharmacological and non-pharmacological strategies
  - Ashwani Kulkarni

**11.00pm - 12.00pm**
- LUNCH

---

### FEBRUARY 18TH, 2012

**Timing:** 10.30 am - ISCMM Oration - Topic: Comprehending & Battling ICU superbugs - Dr Camila Rodrigues

**Venue:** Grand Ballroom (HALL A+B+C), Marriott Hotel & Convention Centre, Time – 10.05 to 10.45 am
Saturday, 18th February 2012

**DAY 2 PARALLEL SESSIONS**

**HALL A**
- FREE PAPERS *A1 - A6*
  - 3.00pm - 3.30pm: Year in review in Respiratory, Mechanical Ventilation
  - 3.30pm - 4.00pm: COFFEE BREAK
  - 4.00pm - 5.30pm: Surgical Intensive Care / Trauma
    - Chairpersons: Adarsh Chaudhuri / Ashit Hegde / Pravin Amin
    - Parenteral nutrition for surgical patients - Marco Braga
    - 4.20pm - 4.40pm: Intra-abdominal Sepsis: Challenges Therapies
      - Adarsh Chaudhuri
    - 4.40pm - 5.00pm: Coagulopathy in Trauma
      - Kushak Bajaj
    - 5.00pm - 5.20pm: Medical Air transport
      - Christopher Farmer
    - 5.20pm - 5.30pm: Q & A

- 6.00pm onwards: ISCCM - Annual General Body Meeting
- 7.30pm onwards: Banquet

**HALL B**
- Chairpersons / Judges: Shriram Sampath / Dilip Kamad
- FREE PAPERS *B1 - B6*
  - 3.00pm - 3.30pm: Year in review in Cardiology / Hemodynamic
  - 3.30pm - 4.00pm: SYNDROMIC APPROACH TO TROPICAL FEVERS IN ICU
    - Dilip Kamad
  - 4.00pm - 4.30pm: Sympathetic autonomic imbalance in acute lung injury
    - Neeraj Kapil
  - 4.30pm - 5.00pm: Malaria in ICU - new perspectives
    - Pravin Amin
  - 5.00pm - 5.20pm: Approach to thrombocytopenia in tropical infection
    - Dr. Chaudhry
  - 5.20pm - 5.30pm: Q & A

**HALL C**
- FREE PAPERS *C1 - C5*
  - 3.00pm - 3.30pm: Year in review in Ethics / Administration / Management
    - R. K. Mani
  - 3.30pm - 4.00pm: How to stem the tide of carbapenem resistance
    - Yezdi Carmel
  - 4.20pm - 4.40pm: Anti-infective Therapy
    - Y. P. Singh / Balu Abraham / Aravind Murugan
  - 4.40pm - 5.00pm: Antibiotic Therapy finding the right balance
    - P. H. Chandraker
  - 5.00pm - 5.20pm: My approach to management of VAP in 2012
    - N. Niederman
  - 5.20pm - 5.30pm: Q & A

**HALL D**
- Chairpersons / Judges: Atul Kolarkar / Kriwar Bajer
- FREE PAPERS *D1 - D5*
  - 3.00pm - 3.30pm: Year in review in Sepsis / Infection
    - Suresh Ramasubban
  - 4.00pm - 5.30pm: Sepsis
    - Chairpersons: Sumit Ray / Sanjay Dharuka
    - 4.00pm - 4.20pm: Is early goal directed therapy (EGDT) the only way to resuscitate?
      - Mitchell Levy
    - 4.20pm - 4.40pm: Deep Venous Thrombosis (DVT) prophylaxis - in severe sepsis
      - N Ramakrishnan
    - 4.40pm - 5.00pm: Is Multi Organ Failure (MOF) an adaptive response?
      - Clifford Deutschman
    - 5.00pm - 5.20pm: Emerging Advances and New Paradigms for Sepsis Management in 2012
      - Mitchell Levy
    - 5.20pm - 5.30pm: Q & A

**HALL E**
- Chairpersons / Judges: J. V. Peters / S. S. Aum
- FREE PAPERS *E1 - E5*
  - 3.00pm - 3.30pm: Year in review in Neuro Critical Care
    - Sreevatsa Sahoo

Dear Reader

Thank you very much for being with us all these 24 months. The journey of the present editorial board ends with this edition of the bulletin. The baton will be passed on to the President-elect Dr Shiva Iyer, who I am sure will take this popular mouthpiece of ISCCM to greater heights. Kudos to the outgoing EC under leadership of Dr Rajesh Chawla for doing a wonderful 2 years’ service to ISCCM. It has been an eventful tenure. I personally look forward to long association with him.

While relinquishing this office of editorship of this bulletin, I will leave few notes. The first and foremost is – the editorial board members (all of them) should contribute significantly to the bulletin. They should bring in useful and informative material from all nooks and corners of the country. This will disseminate information and news and excite others.

The second note is ISCCM has really marched forward fast, but some of our states and territories have not been able to match the speed. Bihar, entire northeast, states of J and K and Himachal, Most of Orissa, and eastern UP, parts of MP have lagged behind. We need to make special efforts and groups to bring them to respectable level if not at par. Nursing in ICU, remains the area of concern and therefore, it may be high time we thought of running regular courses for them like we run IDCCM and IFCCM. This programme is bound to succeed.

We can coordinate, complement and supplement programmes of interest to ISCCM and its members which are run by other credible societies or universities. Such societies may be within or outside the country. Picking up the best material and adding our flavour to it, will result in wonderful product. Replicating the same product in different shape will only mean resource wastage. Therefore, we may be on look out to such programmes and products which can help growth and improvement of Critical care medicine in our country.

I bid farewell to all of you as the editor of this wonderful publication. I will be there with you in a different role. Your help will always be vital anyway.

Thanks

Editorial Board

ISCCM

Dear Member,

I have completed my term as the President of Indian Society of Critical Care Medicine and it is time to introspect. These two years have been extremely satisfying for me. Throughout my tenure, I had the full support of all the executive members of the society, and their support made my tenure a successful one in a wide range of issues. Today, I would like to share with you some aspects of what we have been able to achieve in these two years.

Indian College of Critical Care Medicine

Our dream of forming an Indian College of Critical Care Medicine has finally come true. The main aim of the college is to formulate and carry out all educational activities including Indian Fellowship in Critical Care Medicine, Indian Diploma in Critical Care Medicine and Post MBBS Certificate Course (starting this year). There is great demand for these courses. Out of the total 92 centres, 32 have been accredited in the last year to run these courses.

The college will recognize and honour members of the Society who have shown dedication and leadership in the practice of critical care. The college will also guide the Society from time to time in academic activities and help develop new programmes. The Credential Committee, under the chairmanship of Dr. G.C. Khilnani, has selected fellows of Indian College of Critical Care Medicine who will be honoured on the 17th of February 2012 at the convocation ceremony during the annual conference in Pune. It gives me great pleasure to congratulate Dr. J. Divatia who has taken over as Chancellor of the college. I am sure that under his leadership, the educational activities of both the college and the society will be streamlined.

Electronic Elections

ISCCM is the first medical society in India which has introduced election of its office bearer and executive members by electronic mail. The software was prepared by Mr. Nibaj Jani, CEO – Promoteus. After security testing the e-election were conducted by MCA Consultants Solutions. I thank Dr. Narendra Rungta, Chairman, and members of the Election Commission who supervised these elections very efficiently. Members participated in the process with great enthusiasm. I again request members who have not yet updated their details to do so now. You can update your details from the website and send it to the office to be able to participate in the election next year. Please remember, that from now on all information will be sent by email only.

New Office of the Society

The new office of the society at Dadar was inaugurated on 7th August 2011. We have appointed Mr. Vimal Merchant as Executive Manager who will supervise all the activities of the office. The Society is expanding very fast and to carry out all its diverse activities we required not only a bigger office but also more organizational staff. Therefore staff appointments have been made to look after various activities of the society such as education, research and membership. I would like to thank Dr. C.K. Jani, Chairman, and all the members of Building Committee who worked very hard to find an appropriate place. The new office will go a long way towards facilitating the activities of the Society.

Research

You will agree with me that under the chairmanship of Dr. J. Divatia, the Research Committee has given great service to the society by conducting the Indian Intensive Care Case Mix and Practice Patterns Study (INDICAPS) successfully. Data from INDICAPS would help not only in identifying common problems but also help identify those ICUs that could participate in research in the future. The ISCCM Research Committee has also recommended that ISCCM should undertake studies on problems relevant to India.

MOSER (Multi-center Observational Study to evaluate Epidemiology and Resistance patterns of common ICU infections) study is progressing very well. Dr. Ramesh Venkstraman is working very hard and we have already got data for more than 100 patients. This study will be completed in the next 3 months.

Critical care network(Net ICU)

During the course of co-editing the ICU protocol book, Dr. Subhash Todi and I discussed a whole host of other issues. One of the things that we discussed was the formation of a critical care network – Net ICU (Network of Indian Critical Care Units). The executive committee of ISCCM has liked the idea and it is being discussed among the EC members. This will come into existence only after the executive committee of the society approves this in one of the EC meetings.

The Net ICU is being thought of as a vehicle to promote investigator initiated clinical research in India and to create a national database of Indian ICUs for benchmarking and performance assessment purposes. This will help generate a national epidemiological and demographic database by observational studies in order to identify problems unique to Indian ICUs that can form key areas for further research. This will generate clinical research hypotheses for the purpose of conducting multicentre interventional clinical trials in India that may propose quality improvement techniques. A spinoff effect would be the creation of a workforce of clinicians with expertise in clinical research methodology. All these proposals will be discussed in the society EC before coming into existence.

ICU Protocol Book- A stepwise approach

The other good news is that finally the ICU protocol book has been submitted to MS. Springer Publications for publication. I had the privilege of being one of the editors of the book along with Dr. Subhash Todi. It has come out very well. This book will be released in April this year.

Website

Our newly designed website is full of information. You will agree with me that it is user friendly. I thank Dr. Sheila Naanaan who has been working hard to update it very efficiently and very regularly. All the lectures of Critical Care are now available on the website. We are also starting podcasts that will cover recent studies. Dr. Suresh Rameshan has agreed to take this responsibility for the next year.

Constitutional Amendments

Our constitution was written many years ago and subsequently a few amendments were made. Necessary amendments to our Constitution to incorporate the proposed changes as mentioned above, and many others, were approved in the last Annual General Meeting. Dr. Narendra Rungta and members of the Constitutional Committee have done a commendable job. Such an exercise will now be done every five years.

Publications

Our Pubmed Indexed Journal, the Indian Journal of Critical Care Medicine, and the bimonthly news bulletin, Critical Care Communications are being brought out very regularly.

Membership

There is great interest amongst critical care professionals in joining the society. I am very happy to inform you that an unprecedented number of new members joined the society in the last two years. I thanked Dr. Sheila Naanaan, Chairperson, and members of the Membership Committee for their commendable efforts.

Branches

We have grown very rapidly in the last few years and at present the society has 310 branches. Many of these branches are now very active and organize a number of scientific programmes. From now on the society will confer a Best Branch award every year to the branch with the best performance overall. This year it is being awarded to Agra branch.

ISCCM Foundation Day

The ISCCM executive has decided to celebrate the ISCCM Foundation Day every year. Last year we celebrated this day for the first time and its theme was “Early CPR saves lives”. This year it had been decided to celebrate the ISCCM Foundation Day on 9th October 2011 all over India. The theme of ISCCM Foundation day is “War Against Death” and is based on a leading cause of mortality and morbidity worldwide, more so in India. This activity was coordinated by Dr. Sunil Singh and Dr. Manish Munjal. We organized interactive sessions, skill testing and lectures on the subject for general physicians at more than 75 places. All the branches of the ISCCM organized activities for both physicians and the media to draw the attention of the public towards sepsis. We also organized press conferences and webinars on sepsis.

Cricare 2011

The Annual Conference of Indian Society of Critical Care Medicine, Cricare 2011, held from 16th to 21st February 2011 at Vigyan Bhavan New Delhi was a great success. I thank and congratulate all those who made it possible, especially Praveen Khilnani, Suninder S Arora, Deepak Govil and Prakash Shastri to name a few, and all the members of the Scientific and Organizing Committees. This Conference received all round appreciation from everyone present. There were 17 post-Congress workshops that were well attended.

Cricare 2012

Cricare 2012 is being held from 15th – 19th February 2012 at Pune. The theme of this year’s annual congress is “Critical Care in India – coming of age”. The conference will be preceded by 16 workshops. The organising committee has put in a lot of effort to make it a memorable event, not only in scientific content but also in entertainment activities. You must visit our website www.cricare2012.com for more details, please get in touch with the congress secretariat. Don’t miss it!

I am truly humbled by the kind of support you have given to me and the dedication you have all shown in these two years to strengthen and enrich this society to reach newer heights in the study and practice of critical care in India. It is indeed my privilege to specially thank everyone’s family members who have patiently stood alongside and have graciously contributed to the best interest of the society.

It is a sense of satisfaction that I hand over the helm of the society to Dr. Narendra Rungta, in who’s safe and able hands the society will soar into higher realms of excellence.

Once again, a big thanks to all of you.

Dr. Rajesh Chawla, President, ISCCM (2010-2012)

Pediatric Critical Care: Road Ahead

Dr. Kundan Mittal • Rohtak • kundanmittal@hotmail.com

Every life counts, may it be newborn, child, adult or old man. Critical care was first thought and developed in 1863. First pediatric intensive care unit was established in 1950 in Sweden and later in the year 1967 in Unites States. Prior to this pediatric patients were treated in adult ICU's and still in many part of world it is still part of adult ICU's. Since then speciality is growing and in west it has grown even further in various sub-specialities. In India initially adult and neonatal ICU s were started and paediatrics was part of adult ICU's. With development and implementation of various child health programs many diseases are preventable but still acute illnesses and trauma are major killer of children especially under-five mortality is still higher. Now the pediatric critical care has developed as separate speciality in India but intensive care facilities are still limited to major cities of India and that mostly in private sector. Intensive care services are beyond the reach of common man in private sector. Children are more likely to deteriorate if not given help immediately. Moreover children depend for their care on caregiver or parents. It has also been proven scientifically that children are not mini adults and they are different anatomically, physiologically, developmentally and their requirement are totally different. Thus they cannot be part of adult intensive care. Children must be treated by pediatric specialist. From time to time guidelines have been issued for setting up of PICU's in India but they primarily focus for major set up. On an average 10% of total pediatric admission need PICU care! We have also to understand that PICU does not mean only ventilatory support. There are many good reasons for child to be admitted in PICU. Most of doctors are not even clear in idea that when to refer the child to intensivist. Many deaths can be prevented if referral is made well in time. The time has changed and we have to reach to society at door step. In various parts of different States distances are also more to reach at medical colleges. Even in various medical colleges either PICU's are not fully developed or not looked after by trained persons. Time has come if we want decrease the childhood mortality we have to develop smaller PICU at district level. Government has to think for setting up intensive care units at district hospitals with at least six PICU beds. We have to develop guidelines for smaller PICU’s (doctors/staff nurse/equipments/treatment protocols/pace).

There is definite shortage of trained staff for PICU and moreover PICU’s are demanding. Government can think of training their staff for short periods and can establish the PICU’s at district hospitals. Under present circumstances with NRHM making fund available there should be no problem in establishing PICU at district hospitals since government is already stressing on sick newborn care units. The staff can be trained simultaneously for pediatric intensive care. Academy of pediatric critical care education & research has already started taking initiative in this regard.

Form for Change of Authorised Residential Address, Email ID and Mobile Number

To,
Indian Society of Critical Care Medicine

I would like to request you to change Residential address / email / mobile number in ISCCM database.
